

PLBC Online

The reality is that sometimes life is busy and prioritizing school can become difficult. Pacific Life Online is a great solution for students wanting to take their college classes with a margin of flexibility.

We are consistently updating our catalogue of online courses. Local students also have the option of blending campus classes with online classes in order to facilitate their personal schedules.

“I Am Thankful Every Day For That Equipping!”

“I love PLBC! Their online studies allowed for me to study while being in ministry. Each course I took got to be considered in the daily activities and opportunities of pastoring. The teachers and leaders at PLBC were supportive and encouraging of my life and ministry and I enjoyed the personal connection with them.” — JEN WRIGHT
